## Pre-Approval

*Repair pre-approval can greatly speed up the repair process for your instrument. Repairs are performed during the evaluation and estimates are generated only if the repair cost exceeds the pre-approved amount. Please note that a \$75.00 diagnostic fee applies to all instruments returned to Durawear for evaluation. This fee is waived if an instrument is repaired or replaced through Durawear's Service/Repair Department.*

Please check a box below

Proceed with repair if costs are under \$ \_\_\_\_\_

No pre-approval: Call me with an estimate before work is done. (If repair work is declined a diagnostic fee of \$75.00 will be charged)

Please get this thing fixed and back to me ASAP as long as the cost is reasonable! (No more than 1/2 the cost of a new one)
